BAPTIST CHURCH OF RECONCILIATION - FLORENCE

The first cell of our church

In a cell, members spend time together, minister together, encourage and pray for each other, and help each other with needs and problems. There is a strength and an intensity in their love and devotion to God and to each other. They have a sense of belonging to a community that cares about them. As members' love for each other grows, time spent in worship together acquires a special value. The cell also provides the ideal background for the development of personal leadership or discipleship relationships. In this context, it is easier for older believers to sit side by side with younger believers to encourage them, teach them, and apply themselves in ministry with them. Through the multiplication of the cell, our desire is that every member is a leader and every house a church, in this way we want to reach the people we know who would never come to a church, but would not refuse an invitation to a friend's house .

Science and Faith

After many months and a lot of struggle, I finished translating the books that speak of science and faith into Italian, a material with a Creationist topic that we cannot find in Italian and that I wanted to translate to leave a legacy for this generation and for the next ones, mainly for kids entering high school so that evolutionary ideology doesn't take up space in their hearts and minds, so now they have material that can counter the teachings that discredit God's word!

Friendship Day 2023

Eight dates to bring our testimony to the city through evangelization. For the year 2023

we have chosen eight dates to celebrate our friendship celebration, an occasion where we can put into practice love towards the people we know by inviting them to participate with us in a day together with the church, to get to know who we are and what we do, how we live (in Italy it is not obvious that everyone knows how true believers live), where we organize games, lunches, chats, where we have the opportunity to explain the reason for our faith to those who come and remain curious (1 Peter 3:15), make friends with each other's guests and better yet, among us church members and finally, the friendship party is meant to be the gateway to our cells (small groups that meet in our homes) and thus be able to practice discipleship in the lives of new people.

Pray with us for the Lord to lead people and give us wisdom to help us accomplish our goals, or to reach many people and spread his kingdom here in Florence and Italy.

2023 IS CELEBRATED ON THE 22ND OF OUR WEDDING AND OF ITALY

This year we celebrate 22 years of Italy and marriage, we got married on February 17, 2001 in Brazil and on February 24 we left for a strange and unknown place for us, but which in the end proved to be the way of the Lord, The Italy, where we came here with an ideal but which over the years our dream and desire to return home was superseded by the Lord's work. In these 22 years in Italy (always in Florence) we have put down roots, we have had three children (Christian 10, Edoardo 8 and Melissa 4 years old) and we dedicate ourselves to serving the Lord with joy and love so that the light of Christ Jesus may shine in the heart of this people.
